IP Expo 2011

DiskShred Secure Storage

CESG Approved Service

DiskShred is approved by the CESG under the Claims Tested Mark (CCTM) scheme.

20mm Debris

DiskShred reduces all forms of redundant media to debris no larger than 20mm in diameter ensuring complete destruction of every data bearing device.

95% Material Recovery

DiskShred advanced shredding service delivers 95% material recovery, helping to minimise the environmental impact of the service.

On-Site Shredding

DiskShred is an on-site shredding service which customers can witness using the supplied safety equipment.
